THE SAFETY SOLUTIONS GROUP

Professional Safety Solutions (PSS), COVAL Risk Management Solutions (CRMS) and Safer Work Solutions (SWS) have established an effective business alliance in forming The Safety Solutions Group providing many organisations with a very high level of cost effective service and expertise.

Alliances are established across Australia, Canada and South East Asia with highly qualified and professional providers of OHS Management Solutions.

The Safety Solutions Group has strategic links with other global OHS professional consultants who have commitment, experience and expertise, and are dedicated to the highest level of OHS Standards.

A strong portfolio of total OHS Business Management and Corporate Social Responsibility Solutions can be provided to service the needs of organisations across the globe.

[Our Code of Ethics](#)

At all times during the provision of services we will:

- Act honestly; maintain integrity, objectivity and independence during all dealings with the client.
- Identify any possible conflict of interest before conducting any activities.
- Present in a professional, tidy and courteous manner during all communications associated with the client.
- Respect and maintain confidentiality of all data, information and other evidence gained during the activities.
- Seek to gain only financial remuneration to the agreed fee for services provided and other benefits shall be discouraged and avoided.
- Hold the OHS Profession in the highest regard and act to maintain a valuable reputation for the profession.

Safety Solutions Group Services and Products

Vision

To be a global provider of the highest quality range of products and services, in selected target markets, for establishing an integrated management system for Occupational Safety and Health, Environment, and Risk Management.

Mission Statement

To provide professional and effective consultancy and auditing services, supported by relevant training and products, in selected target markets, for Occupational Safety and Health, Environment, and Risk Management Systems.

To achieve this mission, we are totally committed to client satisfaction, requiring consistent and reliable service delivery, provided on time, at a fair and competitive price. We will provide the best level of services and solutions to meet and exceed user expectations and respond effectively to our users' needs, fulfilling each promise with dedication and integrity.

Philosophy

The Safety Solutions Group believes that the key to success is ACTION through team work. The acronym for ACTION is : -

- A**dvice professionally
- C**ommunicate effectively
- T**ackle task efficiently and thoroughly
- I**ntroduce best management practice
- O**perate objectively
- N**ever procrastinate

Objectives

- To provide effective solutions to Occupational Safety, Health Environment, and Risk Management issues.
- To complete projects/assignments with the highest level of quality that surpasses client expectations.
- To advise our clients on best management practices and suitable measures to enable them to make informed and balanced decisions.
- To share our knowledge, expertise, and experience.

CONSULTING SERVICES

Programs and Services

Our range of OHS Consultancy Services are designed to compliment YOUR organisation's needs.

In the early stages of safety system development and implementation, organisations have different needs when aiming for best practices in managing workplace health and safety.

OHS AUDITING SERVICES

It is crucial for an organisation to check that OHS management strategies have been implemented effectively, in the same way that financial audits verify that accountancy practices are effective.

Management System Auditing is advocated as an approach to monitoring and assessing OHS management systems and a managed process for checking and reviewing OHS management strategies.

We conduct various types of audits in Australia and Internationally in accordance with the organisation's needs and base them on contemporary principles or on a range of Audit Standards.

Audits	Audit Standards
<ul style="list-style-type: none"> • OHS Management System • Due Diligence • Compliance with OHS legislation • Compliance with Standard Work Practices • Emergency Preparedness • Plant and equipment • Traffic Management • Specific Hazards • Safety training requirements 	<ul style="list-style-type: none"> • OHS Legislation – OHS Act and OHS Regulations • AS/NZS 4801 OHS Management Systems • OHSAS 18001 OHS Management Systems • AS/NZS 4360:2004 Risk Management • Due Diligence/ Corporate Governance • Specific Systems Audits (Elements)
